

## STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**The strong man has a strong stomach.**  
Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

**GIVEN AWAY.**—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

### Useful Tears.

Tears have their use, apart from the crying aspect. The eye requires to be kept clear and clean, and tears perform this duty. A striking example of this is shown when the eye is hurt. It at once commences to water, and often this natural method of cleansing relieves the pain and removes the cause of the discomfort.

### Women as Fakir Victims.

Women are especially warned that there are many fake curies in Europe and other places, and women who are traveling are considered "air prey" as a general thing. In most places there are persons who can be relied upon to give true information in regard to these things, and women should trust to their judgment.

### DRUG DANGERS

Serious results have occurred because drugs used in medicine were not pure or of the strength anticipated by the physician ordering their use.

No doctor can obtain the desired results in the sick room unless the prescriptions are filled exactly as he wrote them as to quantity, and moreover with drugs high in quality, of purity and freshness.

It requires care, attention and specific knowledge of modern pharmacy to properly fill prescriptions.

We only use the best drugs obtainable and the amount of business we do keeps our drugs fresh.

These are points which ought to be of interest to you, for when you are sick buy the freshest and best.

Bring your prescriptions to us. The right drugs at the right prices.

Registered Pharmacist always in charge.
